

- Threaded container and lid with nubbed top for easy opening and closing

- Removable pour spout and liquid recovery drain trough for easy clean-up

- Rugged, ergonomically designed hand grip for one-handed pouring

- Spill-free, pour spout for even and precise flow of emulsion

*Introducing Ulano's exclusive*

# EZ-Flo<sup>®</sup> Container

An innovative emulsion delivery solution for a better screen printing experience.

**EASY TO POUR:** Now, dispensing emulsion is a snap! Specially designed pour spout offers a smooth, mess-free flow of emulsion while filling the coating trough.

**SPILL-RESISTANT:** Strategically located liquid recovery drain trough captures the emulsion over-flow while pouring to ensure no spillage; helps avoid time-consuming clean-up and cost associated with wasteful emulsion spills.

**READY-TO-USE:** Threaded container featuring twist-off lid and nubs on top for easy opening and closing.

**FAST AND EFFICIENT:** Exceptional convenience of simple, "tool-less", open-and-pour use and spill-free spout design help save substantial prep time and speed up the overall printing process.

**SUPERIOR FLOW CONTROL:** Rugged side hand grip provides superior handling and allows for an even and precise flow of emulsion.

**ONE-HANDED OPERATION:** Ergonomically designed for convenient single-handed, fatigue-free pouring.
