

## Turnkey Systems for Ink Jet Positives

[www.ulano.com/ijf/ripsoftware.htm](http://www.ulano.com/ijf/ripsoftware.htm)

Ulano has partnered with iProof Systems PowerRIP for a complete solution for making positives with your graphic software. PowerRIP converts your Postscript™ output into EPSON output. Increased ink deposit control in picoliters makes sure you get greater than 2.8 – 3.5 UV density and halftone control from 30 to 150 line halftones.
