

## INK AND STENCIL REMOVER CONCENTRATE

### A COMBINED PLASTISOL INK WASH AND STENCIL REMOVER LIQUID CONCENTRATE FOR USE MANUALLY OR IN DIP TANKS

**Ink and Stencil Remover Concentrate** is a liquid concentrate for removing both plastisol inks *and* direct emulsion and CDF® Direct-Film (capillary film system) stencils.

#### INSTRUCTIONS FOR MANUAL USE

Remove manually as much plastisol ink as possible from the screen. Apply **Ink and Stencil Remover Concentrate** to both sides of the screen vigorously with a brush. Wait 2 -3 minutes so that **Ink and Stencil Remover Concentrate** has time to react with both the ink and the stencil. Rinse the screen gently with water to avoid splashbacks, then use a commercial power spray unit.

#### INSTRUCTIONS FOR DIP TANK USE

**Ink and Stencil Remover Concentrate** can be diluted with up to four parts of water when used in a dip tank. After printing, remove manually as much plastisol ink as possible from the screen. Allow the screens to soak in **Ink and Stencil Remover Concentrate** solution for 1 – 5 minutes. Rinse the screen gently with water to avoid splashbacks, then use a commercial power spray unit.

Remove screens to the washout area before the ink and stencil material dissolves in the dip tank. This delays contamination of the **Ink and Stencil Remover Concentrate** solution. Add fresh **Ink and Stencil Remover Concentrate** to the dip tank as needed. Eventually, completely fresh solution must be added to the dip tank.

#### CAUTION

Wear gloves, goggles and protective clothing when using **Ink and Stencil Remover Concentrate**. Do not allow **Ink and Stencil Remover Concentrate** to dry on the screen, as this will make stencil removal difficult or impossible later.

#### PRODUCT DATA

Flash point:	not applicable
Color:	colorless to light brown
TLV:	not applicable
VOCs:	none
pH value:	<3
HMIS ratings:	Health: 1 Flammability: 0 Reactivity: 0
Storage:	Store in a cool, dark environment.
Shelf life:	9 months at 68° F. (20° Celsius)
Disposal:	<b>Ink and Stencil Remover Concentrate</b> is biodegradable and can generally be washed down the drain. This can be verified by a review of the Material Safety Data Sheet with local authorities.

#### FORMATS

**Ink and Stencil Remover Concentrate** is available in 1 quart (946 ml.), 1 U.S. gallon (3.78 lt.), 5 U.S. gallon (18.92 lt.), and 50 U.S. gallon (189.25 lt.) units. Quarts are packaged 12 per carton; U.S. gallon units are packaged 4 per carton; 5 and 50 U.S. gallon units are packaged individually.
